EDUCATION

Biju Patnaik University of Technology

Bachelor of Technology - CGPA - 8.0

08 2020 – 06 2024

Odisha, India

PROJECTS

Bank Management System [↗](#) | Python, Django, dbsqlite, HTML and CSS

- Implemented functionalities for account creation, login
- Developed modules for deposit, withdrawal, and transfer of funds between accounts
- Enhanced security by encrypting passwords and implementing PIN reset using OTP verification through Gmail
- Designed responsive web pages using HTML and CSS for a seamless user experience

To-Do App and Articles Page [↗](#) | Python, Django, PostgreSQL, HTML and CSS

- Developed a web application to manage tasks and articles with full CRUD (Create, Read, Update, Delete) functionality using Django and PostgreSQL
- Implemented a To-Do App feature that allows users to add, edit, delete, and view tasks, ensuring efficient task management
- Designed a user-friendly interface to enhance the user experience and make task and article management intuitive
- Optimized database queries and implemented efficient data retrieval techniques to ensure fast and reliable performance

E-Commerce Reports-Dashboard [↗](#) | Power BI Desktop, Power BI Service and Advance Excel

- Designed and engineered an all-encompassing E-commerce Reports utilizing Power BI to offer strategic insights into both sales trends and customer interactions
- Engineered interactive visual representations highlighting crucial indicators like earnings, conversion ratios, best-selling items, and customer characteristics
- [Live site here](#)
- [Live site here](#)

INTERNSHIP

Microsoft and NIIT Foundation [↗](#)

09 2023 – 11 2023

Data Analyst Intern:-

Remote

- Created an all-encompassing E-commerce Reports through the amalgamation of sales, employee, product, and customer data from diverse sources. Implemented dynamic visualizations that spotlight critical metrics, such as revenue, conversion rates, top-performing products, and demographic insights
- Integrated diverse data sets from various origins, encompassing transaction logs and web analytics. Worked in tandem with interdisciplinary teams to guarantee the dashboard fulfilled the requirements of marketing, sales, and operational units

TECHNICAL SKILLS

Language: Python

BI Tool: Microsoft Power BI

Web Development/Framework: HTML, CSS, JavaScript and Django

Concept: Object-Oriented Programming structure (OOPs)

Database Management: SQL

ACHIEVEMENT

- Lead events and encouraged unity as the House Captain

DECLARATION

I hereby declare that the above information is true and correct to the best of my knowledge.
